

## Type G and GD according to DIN 808 with plain bearing

- Suitable for every application in the range of general engineering up to a maximum speed of 1000 r
- Type G precision single joint
- Type GD precision double joint
- Maximum articulation angle 45° for each joint
- Bearings designed as plain bearings
- Available with finish bore H7 – on request with keyway, hexagon bore or square bore
- Also available as clamping hub

Precision single joint G

Precision double joint GD

Finish bores:

Type G and GD
